

## FSA REPORT

- MARGIN PROTECTION PROGRAM FOR DAIRY PRODUCERS

Significant changes to the 2018 MPP are included in the Bipartisan Budget Act of 2018. The FSA National office has not provided information about the program changes or signup dates to county offices. From what I have read the major changes are as follows:

1. Changes in premiums – The premium rates for tier 1 ( up to 5 million lbs. of milk )have been lowered substantially.
2. MPP payments will now be calculated on a monthly basis, where previously payments were calculated based on the average margin for a 2 month period.

As soon as we have program details we will be informing producers about the changes to the program and signup dates. I have attached a printout that includes today's margin calculations. This has not been updated to the new monthly margin calculation, it is still based on the 2 month average.

- AGRICULTURAL RISK COVERAGE & PRICE LOSS COVERAGE PROGRAM ( ARC-PLC)

Signup has begun for 2018 and will run through August 1, 2018. We are encouraging producers to sign up now and not wait until they get busy with field work. Attached is a report that shows 2016 ARC-PLC payments issued in New York counties. Payments are issued after the marketing year for the crop ends. Payments depend on the national average market price of the crop and the county yield reported to NASS. Any payments for 2017 would be issued in October of 2018.

If you have any questions please let us know.

Thanks,

Dave
